Worcestershire Minerals and Waste Local Development Scheme (February 2025 – November 2027)

Our ref: LDS 2025 (consultation database reference 630)

Dear Mrs Donna Bowles

You are receiving this email because your organisation is a "specific consultation body" or "duty to cooperate body" under the Town and Country Planning (Local Planning) (England) Regulations 2012 and your details are registered on our planning consultation database. Please see the end of this email for the information we hold and how to amend your details.

Worcestershire County Council's updated Minerals and Waste Local Development Scheme (February 2025 – November 2027) came into effect on 12 February 2025 and is available on the Council's Website at www.worcestershire.gov.uk/lids. The Local Development Scheme (LDS) replaces the previous version, dated July 2022.

The LDS sets out the programme for the production of minerals and waste development plan documents by the County Council. All development plan documents prepared by the Council must be prepared in accordance with this timetable.

The LDS sets out progress made since the last iteration of the LDS, and includes a timetable for the review of the Waste Core Strategy (Waste Local Plan) and for a programme setting out how monitoring and evidence gathering will be reported through the Local Aggregate Assessment, Local Industrial Minerals Assessment, and Waste Needs Assessment.

The updated LDS reflects significant changes to the plan-making system resulting from the Levelling-up and Regeneration Act 2023. As a result of these changes, and to focus the council's resources on ensuring updated Waste Planning Policy is in place as soon as possible, the Mineral Site Allocations Development Plan Document (DPD) identified for production in the previous LDS is no longer being prepared. The LDS sets out in detail the reasons for this change of focus.

There are still significant uncertainties about the implementation of the new plan-making system under the Levelling-up and Regeneration Act 2023. The timetable set out in the LDS reflects the direction of travel indicated by Government consultations, but will be subject to change as the Government's timescales for implementation become clearer and the exact requirements of the new plan-making system are published.

Yours faithfully,

Marianne Pomeroy
Team Leader (Minerals & Waste Planning Policy)
